If you need to borrow some piece of equipment, if you are looking for something for a performance, if you have a service that you are offering. Get in touch and let us help you.

Sports and More...

In this section we will highlight all the incredible sporting events that take place – from the under age football, fitness training, squash and tennis club news, running/cycle races etc., etc. Naturally, we would very much like to publicise all the results of competitive games, so let us know what is happening and what happened.

Highways & Byways

We will use this space to highlight any changes on the roads, paths, parks, slips and any other village enhancements.

- You may have not noticed the new ramps in place from the harbour up to park – making it easier for buggies and wheelchairs.
- The Old Butter Road is going to be even better, with the installation of a safe footbridge over the river.
